From Marie Rodriguez, UFT Parent and Community Liaison, mrodriguez@uft.org

New family resource hub on the UFT website!

It's full of news and resources to help ease the burden of the coronavirus pandemic and the transition to remote learning for New York City families.

We're continuously updating the hub and have added some new resources since last week. If you visit the parent section of the UFT website, you'll find:

- **Free online tutoring from the New York Public Library**
- **An issue of *TIME for Kids* about the coronavirus**
- **A guide to applying for unemployment benefits**
- **A mental health hotline you can reach at 844-863-9314**
- **Online events from the Brooklyn Public Library**
- **Activity lists in English and Spanish for pre-K, kindergarten through 2nd grade, 3rd through 5th grade and 6th through 8th grade**
- **Online workshops from the Hey There Beautiful Foundation**

**From Maryalice Fegeley, Regional Coordinator, Parent to Parent of NYS, mfegeley@ptopnys.org
www.ptopnys.org**

The New York State Education Department, Office of Special Education is sharing the following resource provided by the [TIES Center](https://tiescenter.org/). Resources are provided for informational purposes only and do not constitute NYSED endorsement of any websites or other sources. Please be aware that websites listed may change. The information provided is true and complete to the best of our knowledge.

The Time, Instructional Effectiveness, Engagement, and State Support (TIES) Center (<https://tiescenter.org/>), funded by the United States Department of Education Office of Special Education Programs, is the national technical assistance center on inclusive practices and policies. Its purpose is to create sustainable changes in kindergarten–grade 8 school and district educational systems so that students with significant cognitive disabilities can fully engage in the same instructional and non-instructional activities as their general education peers while being instructed in a way that meets individual learning needs. The TIES Center provides a number of resources specific to assist in engaging students with significant cognitive disabilities in distance learning.

**From Selina R Atteberry, D31 Title 1 Chair; D31 DLT Title 1 Rep; CTI-PAC SI Rep; NYSED ESSA/TITLE 1 COPS (NYC DOE PARENT REP) d31title1dpac@gmail.com
Courtesy of FACE - Family and Community Empowerment**

[Regional Enrichment Centers \(RECs\)](#)

Our Regional Enrichment Centers (RECs) provide care for the children of our first responders, transit workers, healthcare workers, and other essential employees (i.e. DOHMH, DEP, NYCHA, Parks, Probation, Grocery, Pharmacies).

Meal Hubs

As of Monday, April 6th, free meals have been available for students and adults. Any New Yorker who wants one can get three free meals a day at more than 400 Meal Hubs throughout the city. Meals can be picked up between 7:30 – 11:30 am (for children and caregivers) and 11:30 – 1:30 pm (for adults). No registration or documentation necessary. For more information, check the DOE's website [here](#).

Special Education

Families of students with IEPs were presented with a Special Education Remote Learning Plan, developed by the student's special education teacher and other school-based staff with knowledge of the student. Schools are working with families to ensure that devices are provided to families of students recommended for Assistive Technology, and will contact families to make those arrangements.

IEP meetings will be conducted over the phone, and parents can make a referral by emailing the principal or specialeducation@schools.nyc.gov, or by calling 311. Assessments may be conducted remotely.

MLL - Division of Multilingual Learners

The Division of Multilingual Learners is developing guidance for schools on how to enhance instruction of our ELLs and MLLs in different settings, including bilingual classrooms, integrated ENL, and standalone ENL, to a remote learning environment.

Every school is creating and submitting a remote learning plan as an addendum to their Language Allocation Policy to ensure that English language learners and former English language learners receive targeted instruction in English with the appropriate amount of supports in their home language. These services will be provided by and in collaboration with an appropriately certified teacher.

Planning is underway to ensure that MLLs/ELLs without devices receive translated print resources and home language libraries/texts to support their learning at Regional Enrichment Centers (REC) and at home.

Social-Emotional Wellness

Last year, DOE announced our partnership with National University System's Sanford Harmony program to provide all elementary schools with access to a social-emotional curriculum. During remote learning, Sanford Harmony is offering families access to [Harmony at Home](#), an online toolkit that provides a variety of lessons, activities, and resources to help caregivers navigate the social and emotional needs of children during this difficult time.

Families also have access to confidential mental health information through NYC Well's wellness hotline. To access the services, families can text "WELL" to 65173, call 1-888-NYC-WELL (692-9355).

Family Welcome Centers and P311

DOE is committed to keeping regular communication channels in place for families to the fullest extent possible, while ensuring we are keeping our staff safe. To that end, Family Welcome Center (FWC) buildings have been temporarily closed and staff members are working remotely to support families. FWC staff are available by email, contact information by borough below, and are prepared to assist with enrollment and placement of new admissions, questions around admissions, information about offers,

and waitlists. There may be higher than usual volume but we are aiming to respond to all requests within 48 hours.

Our employees at P311, the DOE's Parent Support Line, are beginning to prepare for remote work beginning next week and will use a remote call management/routing software to avoid disruption in services for P311 callers. Parents can call 311 and say "Schools" to be routed to someone who can assist you.

Families can receive direct support from a FWC staff member by e-mailing your questions to:

- **Bronx:** bronxfwc@schools.nyc.gov
- **Brooklyn:** brooklynfwc@schools.nyc.gov
- **Manhattan:** manhattanfwc@schools.nyc.gov
- **Queens:** queensfwc@schools.nyc.gov
- **Staten Island:** statenislandfwc@schools.nyc.gov

Attendance

Students will not be penalized for absences, and we have removed attendance as a factor for admissions. Schools will be recording attendance (as required by law), and principals are working with teachers to determine the best way to capture attendance in a fair and meaningful way.

Public Meetings

Governor Cuomo signed an executive order this week that has postponed Public Hearings until June. As you know, FACE is working with our colleagues in legal and information technology to identify the best online platforms to support council and parent meetings, since security issues were identified with ZOOM by the NYS Attorney General as well as the FBI. As we work through these solutions, we will keep you updated.
